(54) Title: METHOD AND ARTICLE FOR MASKING PORTIONS OF A VEHICLE BY ADHERENT APPLIQUES

WO 03/070591 A1

(57) Abstract: The present invention is a system and method for creating and applying a plurality of masking sections (10, 12) to portions of a vehicle (14) to mask the same during painting of other and adjacent portions of the vehicle (14). Each of the plurality of individual sections (10, 12) being constructed of a plasticized material having a specified shape and thickness and including a backing surface. The backing surface is adherently applied to a specified location of the vehicle (14) and in order to mask a surface of the vehicle at that location and during such as applying a single or two-tone coat of paint.

J000 Rec'd PCT/PTO 3 JUN 2005

ABSTRACT OF THE DISCLOSURE

The present invention is a system and method for creating and applying
5 a plurality of masking sections to portions of a vehicle to mask the same during
painting of other and adjacent portions of the vehicle. Each of the plurality of
individual sections being constructed of a plasticized material having a
specified shape and thickness and including a backing surface. The backing
surface is adherently applied to a specified location of the vehicle and in order
10 to mask a surface of the vehicle at that location and during such as applying a
single or two-tone coat of paint.
